

Create your own bedroom haven

Avanti has been crafting bedroom furniture in the Midlands since 1980. Our bedrooms, just like our kitchens, are hand-built around a solid cabinet and tailor-made to fit the exact specification of your bedroom.

Nothing is left to chance. We even make a template of your room before crafting your furniture, so we can be sure that whatever the shape, even awkward sloping ceilings, it won't get in the way of another perfect fit.

You'll even be allocated your own Customer Service Manager to help ensure a smooth, hassle-free experience. Now, let's start dreaming about that new room.
