

Buying a new electrical or electronic item from us?

We'll recycle the one you're replacing. Simply call within 28 days, quote your order reference or account number and we'll do the rest.

You can also find local recycling points for your old electricals
<https://www.recycleyourelectricals.org.uk/electrical-recycling-locator/>

Why recycle?

- Recycling and reusing unwanted electrical or electronics can help save the planet, boost the economy and improve lives. Not only that, electrical and electronic equipment (EEE) contains materials, parts and substances which can be dangerous to the environment and harmful to human health if not disposed of correctly.
- Electrical and electronic equipment is now the fastest growing waste stream in the UK and across the world.
- Discover the impact of reusing and recycling your electricals here Recycle Your Electricals campaign...
www.recycleyourelectricals.org.uk

What can I recycle?

- Anything with a plug, battery or cable can be recycled or reused! The materials from recycled electricals can be used in everything from children's playgrounds to lifesaving equipment, while donated tech can help bridge the digital divide.
- You'll find this symbol on all your electrical items. It is a reminder to recycle your old electricals, rather than binning them.

Reducing waste electricals

We charge a fee of £50 per item for the collection and delivery of old electricals to a recycling plant for processing and separating into individual materials, so they can be turned into new, more useful things. Watch the film about how your old electricals are recycled... <https://www.youtube.com/watch?v=7msucy0Jl1c>

- As part of our commitment to reducing the amount of unwanted electrical waste being incinerated or sent to landfill sites, we'll recycle your old electricals when you buy new ones. Together we can stop precious resources from being lost forever, save lives and help protect the planet.
- Every year, we collect, reuse and recycle thousands of tonnes of old electrical and electronic equipment.
- Waste Electrical and Electronic Equipment (WEEE) is regulated by the UK Government.
- We're proud to be working with the national Recycle Your Electricals campaign.
